How will the DulciZOOM format work?

1. Instructors will have a list of names and email addresses of everyone who is registered for each of their workshops, and will email you specific sign on instructions. You will be invited to join only the workshops for which you registered.
2. Music handouts for each of your workshops will be emailed in pdf format in advance.
3. If you have never used ZOOM before, you can watch tutorials on their website, www.zoom.us. On their top menu, click on "resources" followed by "video tutorials."
4. Please understand that it is possible your video reception may not be perfect during any workshop. Normally, this is a very smooth process, but neither the instructors nor Dutchland Dulcimers can be held responsible for transmission problems during workshops.
